Disclaimer Statement: Muskegon County, its departments, boards, offices, agents, and employees, including, without limitation, Public Health-Muskegon County, are not responsible for any loss allegedly due to any act in connection with the service requested. Requesting parties should be aware that a sewage disposal system evaluation requires perforations up to 9 feet into the ground. Buried structures in the area to be evaluated including but not limited to buried water and irrigation lines, gas, and electric utilities should be visibly identified at the site. While recommended, there is no regulation mandating health department approval of the system(s) when a property is sold.
